Deutsche Post DHL Group

27.07.2021

MILTON KEYNES
UNITED KINGDOM

Application as Junior Solutions Architect Intern

Dear Sir or Madam,

About me

I am very interested in pursuing this exceptional opportunity. I am currently studying Media Informatics in the Master's program at the University of Regensburg. I received my Bachelor's degree in Media Informatics & Information Science in May last year. I am about to finish and hand in my master thesis in the next few months and wanted to complete an internship abroad at the end of my time at university before finally entering the workforce.

Why Deutsche Post DHL Group?

I was researching internship opportunities on AIESEC and your company and offer caught my eye. Deutsche Post DHL Group is a leader in logistics and has its roots in the country where I grew up. It is extremely fascinating how a German company works and functions abroad. I would like to be of significant help to the company and take a look inside.

Why me?

In university I learned to think critically and analytically and not to forget my time management. Especially during my master's studies and my working student, I worked a lot in teams on several projects. So I'm used to deadlines and I don't give in to pressure. Thanks to my studies and my work I am very confident with the computer and especially Excel and have an eye for software, because I have programmed and tested some myself. I was also able to use SQL in several courses.

I'm looking forward to hearing from you.

Yours faithfully,

Konstantin Kulik
